

Kennedy Krieger Institute

Is your child
struggling?
WE CAN HELP.

WE KNOW KIDS

The Behavioral Psychology Department at Kennedy Krieger Institute is one of the nation's leading programs. For over 40 years, we have helped children, adolescents, and their families gain the skills they need to overcome challenges, build resilience, and achieve success. Children's behavior is our specialty — we understand why kids behave the way they do. Our licensed psychologists use the latest research and best clinical practices to unlock your child's potential.

BEHAVIORS WE TREAT

We help children and their families overcome a wide range of behavioral issues, including aggression, eating and sleeping difficulties, medical compliance, problems at school, social skills, and self-esteem.

CONDITIONS WE SEE

Our programs address behaviors associated with a variety of conditions, including autism spectrum disorders, intellectual and learning disabilities, and mood disorders like anxiety and depression.

FAMILIES WE HELP

No matter the size or shape of your family, you're welcome here. We work with families of all kinds, including adoptive, foster, divorced, and military families.
